WELCOME

To

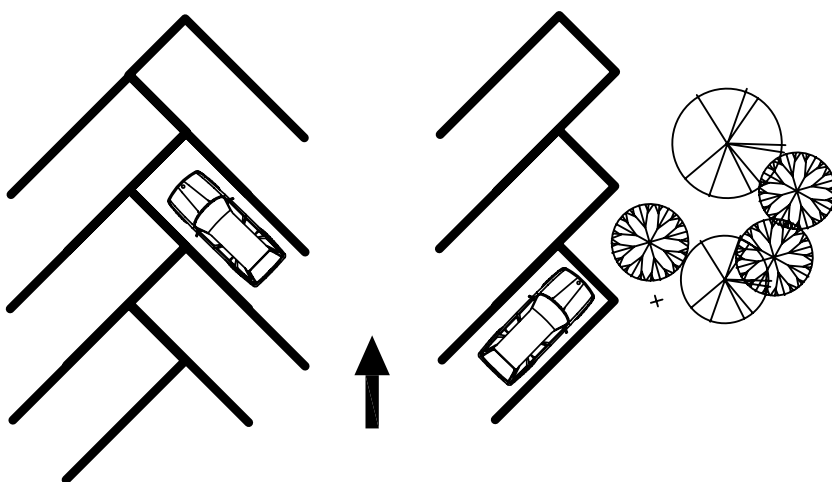

Success through integrity

Message from the board

Within this document, Aphane Consulting will highlight our background and expertise by looking into our extensive track record in the engineering industry.

As a member of the South African Black Technical and Allied Careers Organisation (SABTACO), Aphane Consulting is proudly 100% owned and managed by Historically Disadvantaged Individuals (HDI's).

Aphane Consulting PTY (Ltd)
Consulting Engineers and Project Managers
Reg: 2015/090941/07

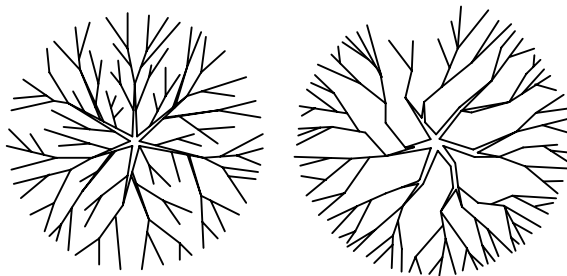

Success through integrity

30,75
10,05
148,85

A member of the South African Black Technical & Allied Careers Organisation (SABTACO).

Ownership

We have six Directors, with five being male and one female here at Aphone Consulting.

APHANE CONSULTING

ABOUT US

01. Aphane Consulting \ At a glance

Who are we and What we believe in.

We are a team of engineers, specialist professionals and administrative staff – with diverse skills and abilities.

At Aphane Consulting we tirelessly endeavour to provide the highest quality of consulting engineering services, that prioritise the benefit of both the environment and community in each of our interventions.

Our vision

To be industry leaders and shapers of industry in South Africa. To be a reputable unit in the engineering network through our work to educate, mentor and employ young professionals regularly. We envision growth that pushes past our borders and sees us become a top tier, black owned engineering company on the continent.

Our mission

To innovate, create and implement unique engineering design and technology. We desire to actively participate in building South Africa's reputation as a world class country.

OUR CULTURE

Our staff are all from Previously Disadvantaged communities. With a rigorous and extensive trainee program, our goal is to recruit executives from within our existing pool of talent.

Our personnel

Aphane Consulting has sufficient personnel to execute various projects successfully. Our company comprises of 6 engineers, 20 technical personnel and 5 administrative personnel.

SERVICE STRATEGY

04. Aphane Consulting \ What we do

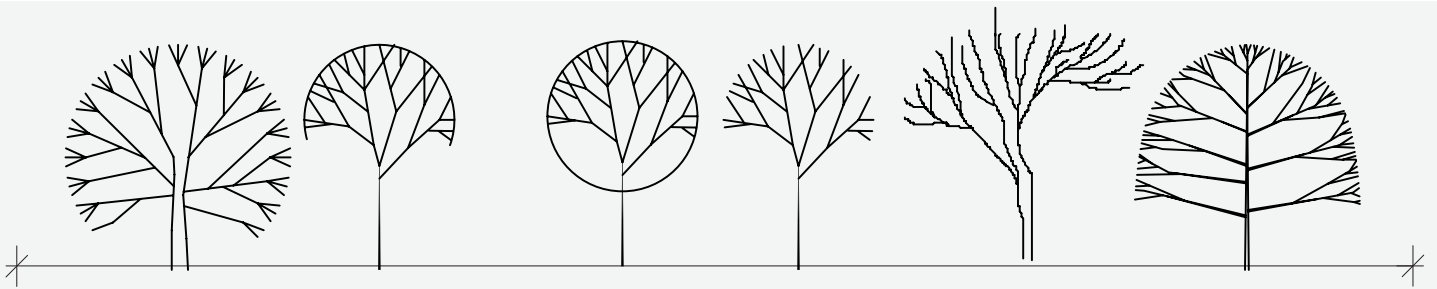

Our Core Competence

Each client's needs are met with unique, specialised engineering consulting service solutions.
A senior member is appointed as the Project Lead to ensure effective communication as well as deliver on the promised quality of each project.

The role of the director is not limited to client liaison, supervision and management of the project but includes an active participation in the design team as well as preparation of the contract documentation.

How we work

This procedure is to ensure peace of mind for our clients and a quality final product. With projects that affect communities, we structure our intervention around collaboration. We welcome and engage the community's input and participation in the planning, design and implementation stages of the project.

The transparency in this engagement allows the community to participate as an equal status partner alongside the professionals; ensuring the transfer of skills and empowerment of the community. All projects that Aphane Consulting execute, have job creation and training as part of the overall execution strategy.

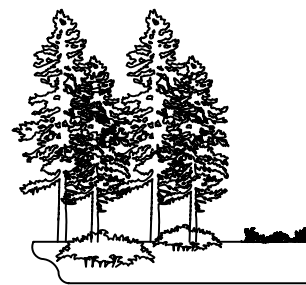

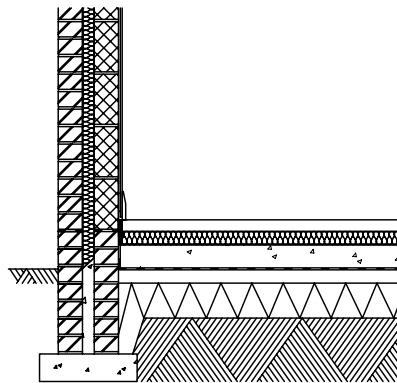

FIELDS OF CONSULTANCY

05. Aphane Consulting \ Our Services

Our Core Competence **continued**

We offer the following fields of consultation of the contract documentation.

Consultation Projects

\01

Road Engineering
